

PhD Student Committee Events

During all the year IBEC PhD committee is organizing different events both scientific and social for all IBEC and non IBEC members

On 24th of February, PhD Committee co-organized with ASBTEC the 1st **Bioengineering Workshop** at PCB. The workshop had a great assistance, specially bachelor and master students.

Bioengineering workshop 2017

Next month, 3rd of March, there was a new edition of **IBEC Lab Tour**. It offers a possibility for newcomers to know better the IBEC labs and to establish contact with them. Afterwards, to enhance the interactions between IBEC laboratory members, there were some snacks and a bowling session.

For the fourth consecutive year, the 18th of March took place the **Calçotada**. It is a special activity that everyone is waiting for, even for foreigners who have never eaten Calçots! Despite of the cold, usually gets to reunite around 25 people.

Laser Tag 2017

On 18th of May took place the **Laser Tag** session. Here, all the participants forgot about lab coats and took a laser gun to have an excited and entertaining session under the pressure of surviving. To finish the day, the three teams went to eat some tapas to recover the energy.

In early June, **IBEC** celebrated the **10th anniversary**. PhD committee got involved in this special event by organizing an IBEC Trivial Game.

Finally, just before the summer break, the **5th IBEC Beach Volleyball** tournament took place on Friday 16th of June at “Nova Icaria” beach, with 7 teams taking part.
