## Fluorescence Stereo Microscope

The Leica MZ10F is a fluorescence stereo microscope equipped with a camera Leica DFC and a workstation.

The camera features a CMO sensor and the ability to record high-definition live images and mp4 movie clips via LAS V4.1 software.

### List of fluorescence filters available:

- |               |   |
|---------------|---|
| -A (UV)       | Excitation filter: BP340-380. Dichromatic Mirror: 400 |
| -Green (N2.1) | Excitation filter: BP515-560. Dichromatic Mirror: 580 |
| -Blue (L5)    | Excitation filter: BP480/40. Dichromatic Mirror: 505  |
